

The New Standard AB CLASSIC™

The Classic Look Of An Allan Block Wall

AB Classic retaining walls set the industry standard for excellence. The simple, straight face of the AB CLASSIC creates elegant structures that enhance the value of every landscape.

The Allan Block Advantage

The patented design of the traditional AB CLASSIC allows you to create smooth curves, steps, angles and straight lines using a single block shape. The unique advantages of every Allan Block system are built in. The raised front lip, notched bottom and hollow core assure that your project will be structurally sound and easily built every time.

Best Applications

The natural straight face look of AB CLASSIC creates smooth flowing lines that compliment any retaining wall application including:

- Residential and housing developments
- Commercial and industrial projects
- Department of Transportation (DOT) projects
- Walls up to 40 ft. high* (12.2 meters)

AB Classic

Specifications

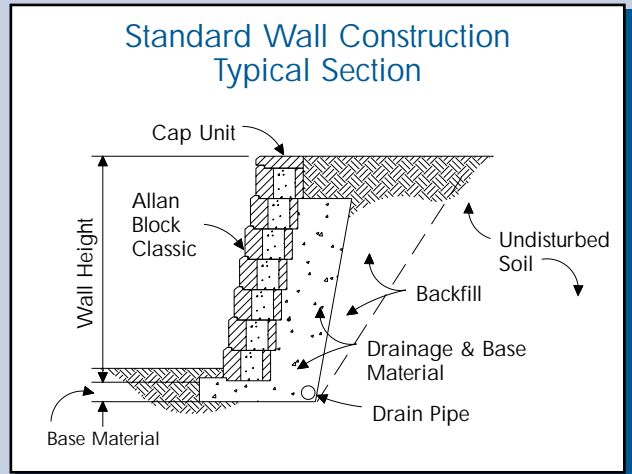

- Coverage: Approx. 1 sq. ft. (0.3 m) per block
- Set Back: 6° from vertical
- Dimensions: 8 in. H x 12 in. D x 18 in. L (20 cm H x 31 cm D x 46 cm L)
- Weight: 75 lbs. (34 kg)
- Options: Capstone, Corner Block

NOTE: Specifications and dimensions are approximate. Contact your local Allan Block Dealer for exact specifications.

*Maximum Gravity Wall Heights

Clay soils, level slope and no surcharge above wall: 2.75 ft. (0.84 m)
Sandy soils, level slope and no surcharge above wall: 4.0 ft. (1.2 m)

Projects exceeding these gravity wall heights, projects with slopes or surcharges above the wall and projects with unstable soil or poor drainage should be designed by a qualified engineer. Contact your local AB Dealer or the Allan Block Corporation for details.

The Allan Block Advantage

- Easy Installation
- Single Block Shape
- Hollow-Core Drainage
- Many Design Options
- Environmentally Friendly
- Interlocking Block
- Patented Design
- Corner Blocks
- Capstones
